Our Affiliate, Western Theatres Limited, are building this impressive complex in downtown Winnipeg.

TO THE SHAREHOLDERS:

1967 was another year of progress for your Company. During the year it maintained its leadership in the operation of motion picture theatres with the development of additional new theatres, and in the communications field, with further substantial growth in each of the community antenna television systems in which it has an interest.

The net profit for the year was $3,543,362 or $2.04 per share as compared to $3,078,716 or $1.77 per share in 1966. This was the sixth year in succession that we have been able to report an increase in net profits. The favourable results obtained reflect the contribution being made by our new theatres, the elimination of unprofitable and obsolete theatres and the changes in operating policies which have been effected in many situations. We have referred in our Interim Reports to the serious effect which Expo 67 had on attendance at our theatres in the Montreal area. In the overall results, the decline in theatre profits which was occasioned by Expo was offset by the profits which we realized on the operation of the trackless trains at Expo and by the additional profits which accrued to General Sound and Theatre Equipment Limited from the sale of motion picture equipment to many of the government and business exhibitors at Expo. Also there was a larger contribution to our net profits from our investments in Television companies and Community Antenna systems.

FINANCIAL POSITION

From the Statement of Source and Disposition of Funds included in this report, you will note that there was a decrease in working capital during the year of $2,924,194. There was a total expenditure of $4,861,684 on additions to Fixed Assets, of which $1,957,866 was on extension of CATV systems and $2,903,818 was on theatres. It is expected that the expenditures on Fixed Assets for theatres will be somewhat less in 1968. With the establishment of Famous Communications Limited there will be a substantial cash recovery to your Company for the investment in Fixed Assets and the Advances which it has made in CATV companies.

Dividends of $1.22½ per share were paid during 1967, the quarterly rate having been increased to 32½ cents per share during the fourth quarter of the year.

The shareholders' equity in the Company represented by capital stock and retained earnings increased by $1,415,449 during the year and at the end of the year the net book value of each common share amounted to $20.05.

Your Company's investment in shares of affiliated companies is carried on the Balance Sheet at their original cost of $5,150,545, an increase of $1,717,783 during the year. The whole of this increase is accounted for by additional investment in shares of communication companies.

The underlying book value of the Net Tangible Assets of our investment in shares of all affiliated (non-consolidated) companies at the year end was about $6,800,000.

Dividends received from such companies amounted to $1,310,745 whereas your Company's share of the net profits of such companies amounted to about $1,508,000.

THEATRES

At the year end your Company had an interest in 263 indoor theatres and 49 drive-in theatres. This is a net increase of four theatres during the year. We acquired eight new indoor theatres, one of which has two auditoriums. Four theatres were disposed of or converted to other uses. Of the 312 theatres which we and our Affiliates were operating at the end of the year, 176 are included in the consolidated group and the operations of 136 are not consolidated.

At the present time we have a number of new theatre projects under way, the most important of which are —

A Dual Auditorium Theatre in the Richmond Square Shopping Centre in Vancouver, which we expect will be open in the late spring of this year.

A Single Auditorium Theatre in Reid Centre, Vancouver, which will be located in a large complex consisting of stores and apartments.

A new Drive-In Theatre in Edmonton, which we will be opening this spring and which will replace our Southside Drive-In which we have had under lease for some time.

A new Indoor Theatre in Red Deer, which will be located in the Park Plaza Shopping Centre. We expect that this theatre will also be open this spring.

An extension to our Paramount Theatre in Lethbridge, which will provide a Twin Auditorium Theatre in this situation.

A Dual Auditorium Theatre in the Calgary Place development in Calgary, which we expect will be completed some time this summer.

A Dual Auditorium Theatre in the large complex which Western Theatres Limited is proceeding with in Winnipeg.

A Dual Auditorium Theatre in the Burlington Mall Shopping Centre in Burlington, Ontario. This theatre will open late in 1968. Burlington, which is adjacent to Hamilton, is situated in one of the fastest growing areas of Ontario.

A Single Auditorium Theatre in the Queen-Metcalfe Centre, Ottawa, which will also include a large Holiday Inn.

A Single Auditorium Theatre in the Scotia Square in Halifax, which we expect to open in the late summer of this year.

A Single Auditorium Theatre in the Les Galeries d'Anjou Shopping Centre in Montreal, which is being developed by the Fairview Corporation and which will be similar to the very successful Fairview Shopping Centre in Montreal and the Yorkdale Centre in Toronto.

We opened our new Dual Theatre in the Place Laval Shopping Centre in Laval, P.Q. on March 14th. This is a fine development in a very fast growing area adjacent to Montreal, which was without adequate theatre facilities.

Negotiations are in progress for a number of other theatres which you will be kept informed of in our Interim Reports as they are completed.

OTHER PROPERTIES

Our Affiliate, Western Theatres Limited, completed the addition of about 50 rooms to the Airliner Hotel in Winnipeg in time for the opening of the Empire Games which took place last summer. This addition to the hotel has been a very profitable investment, as it has added materially to our gross income, without a proportionate increase in overhead

costs. Western will commence demolition of the existing structures on its property at the corner of Portage Avenue and Smith Street in Winnipeg in May, and construction on this site of a new hotel, parkade, retail stores and theatre will get under way shortly thereafter.

Wilson Century Theatres Limited, which is proposing construction of a large hotel and convention centre, together with retail stores and office buildings on its property at the corner of Highway 27 and Dixon Road, in Metropolitan Toronto is continuing to pursue its application for approval of this project by the Municipal Authorities concerned.

We are investigating the redevelopment of some of our other properties, particularly those in key downtown locations in the major cities.

MOTION PICTURE PRODUCTION

The flow of outstanding product from the leading film studios of the world continues and the outlook is for a signficant increase in feature film production for the rest of the year.

Further on in this report we are listing some of the outstanding pictures that will be shown in many of our theatres in the coming months.

TELEVISION & RADIO

Central Ontario Television Limited of Kitchener, Ontario, which operates Television Station CKCO-TV and Radio Stations CKKW and CFCA-FM, had a satisfactory year in 1967. Its management anticipates that the results in 1968 will surpass the performance of last year. During 1967 that Company acquired colour cameras for local live originations. At the present time, approximately 85% of the programs carried on the station are transmitted in colour. CFCA-FM commenced commercial operation on April 16th, 1967. The progress to date is indicated by its growing number of listeners and by the consistent increase in its monthly billings.

Television de Quebec (Canada) Limitee of Quebec City, which operates CFCM-TV (French language) and CKMI-TV (English language), had another successful year in 1967. CFCM-TV continues to be one of the most important independent TV stations in Canada.

British Columbia Television Broadcasting System Ltd., which operates Station CHAN-TV in Vancouver and CHEK-TV in Victoria, enjoyed its most successful year in 1967. Reflecting the excellent programs originated by the station combined with an improved program schedule from the CTV Network, the Company obtained an encouraging increase in sales and profits during the past year.

CJOH-TV Ottawa and CJSS-TV Cornwall, operated by Bushnell TV Co. Limited in Ottawa, Ontario, also enjoyed a successful year during 1967.

Your Company holds a 50% interest in Television de Quebec (Canada) Limitee; 48% in Central Ontario Television Limited; 12.39% of the voting common shares, 11.17% of the non-voting common shares and 24.59% of the preferred shares in British Columbia Television Broadcasting System Ltd., and an indirect equity of 8⅓% in Bushnell TV Co. Limited. We have recently entered into an agreement, subject to the approval of the Governmental Authorities concerned, to acquire an additional 7.9% of voting common shares, 12.1% of non-voting common shares

and 9.1% of the preferred shares of British Columbia Television Broadcasting Company Ltd.

COMMUNITY ANTENNA TELEVISION SYSTEMS

These systems, which are often referred to as CATV systems or Cable TV systems, render a service that provides sharp, clear television pictures to subscribers' sets without any need for an antenna. At the end of 1967, there were approximately 2,200 CATV systems in the United States and Canada serving approximately 3,500,000 homes, with indications that the industry will double this figure by 1972.

Your Company has an interest in twenty-one companies operating these systems. At the end of 1967 they were servicing 173,000 households, compared to 136,400 at the end of 1966. This was a 27% increase during the year. Your Company's equity in the number of subscribers connected to the various systems is approximately 62%, or about 108,000 of the subscriber total.

Sixteen of these companies had a cash profit from operations in 1967. Those companies that did not are in the early stages of establishing systems in the cities of Winnipeg, Toronto, Ottawa, Chatham and Oshawa.

Dividend income to your Company from these systems during 1967 was about $160,000 compared to $72,000 in 1966. Because our policy has been to pay off bank indebtedness and shareholders' loans, as quickly as possible, several of the companies, although profitable, did not pay a dividend in 1967.

All of our associated CATV companies are currently making good progress. We estimate that in 1968 they will duplicate the increase in subscribers obtained last year. Your Company's total CATV operations are the largest in North America. By the end of this year it will have more than 210,000 on service.

ASSOCIATED BROADCASTING CORPORATION LIMITED

Associated Broadcasting Corporation Limited holds the Ontario franchise of "Muzak" which provides "Muzak" background music to offices, hotels, restaurants, banks and factories. With more than 1,500 subscribers on service, Associated is the largest Muzak franchise operator in the world. The Company improved its profits during 1967. Its management is confident it will make further progress in 1968. Your Company has a 50% interest in "Associated".

FAMOUS COMMUNICATIONS LIMITED

This is a new company which has been incorporated as a Public Company under the laws of the Province of Ontario. This company will be so constituted that the ownership by Famous Players in the voting common shares will be limited to an aggregate of 25% of the issued voting common shares to the end that the new company will be qualified under the present radio regulations and the Broadcasting Act to acquire such additional investments in community antenna systems and in television and radio stations as its Directors may consider advisable.

It is proposed that, subject to the approval of the appropriate governmental authorities, Famous Players will enter into an agreement to sell and transfer to this new company many of the interests presently held by Famous

Players in community antenna systems and television and radio stations.

OTHER INTERESTS

As we mentioned earlier in this report, General Sound and Theatre Equipment Limited had a very successful year in 1967, which was accounted for to some extent by the substantial amount of communication and film projection equipment which it supplied to various government and industry exhibitors at Expo. While it cannot look forward to that business in 1968, its backlog of unfilled orders for communication and theatre equipment remains at a satisfactory level. A large part of this Company's business consists of the installation of communicating systems in schools and hospitals and similar institutions where it has gained a reputation for high quality work.

Our wholly owned subsidiary, Theatre Confections Limited, had another successful year in 1967. As is the case with many other businesses of this kind, it has to contend with a continuing rise in the cost of merchandise which it sells, whereas there is a limitation on the amount which it can, in turn, charge its customers. Management is "profit minded" and is taking steps wherever possible to combat this condition.

The improvement which was beginning to take place in our Bowling Centres in the fall of 1966 has accelerated during the current season, which started in September, 1967. There now appears to be no doubt that well equipped, well operated bowling centres can be an important part of the entertainment industry, even though it may take some time yet before the excessive costs which were incurred in equipping them are fully absorbed.

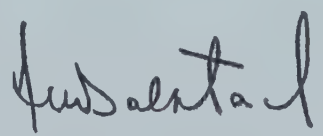

LEGISLATION

The Province of Quebec amended its Cinema Act in August of last year in two important respects. The first and most important was the change in legislation regarding the admission of children to theatres and the second is the change which, under certain conditions, will permit the erection of drive-in theatres in that Province. There will be substantial long term benefits to theatre operators in that Province from the change in the regulation regarding children. At the present time, we are of the opinion that the conditions under which licenses might be granted for drive-in theatres are too restrictive to justify the large investment that is involved in erecting such theatres.

Another favourable development affecting theatre operations was the change in legislation in the Province of New Brunswick, which permits the operation of motion picture theatres on Sunday.

CONCLUSION

With the continued support of our Associates in our many and varied enterprises and of our more than 6,200 employees who have made such a fine contribution to your Company's success in the past, we look forward to another year of progress in 1968.

AUDITORS' REPORT

Toronto
March 21, 1968.

To the Shareholders of
Famous Players Canadian Corporation Limited:

We have examined the consolidated financial statements of Famous Players Canadian Corporation Limited and subsidiary companies as at December 30, 1967. Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion, these consolidated financial statements present fairly the consolidated financial position of the companies as at December 30, 1967 and the results of their operations and the source and disposition of their funds for the fiscal year then ended, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding fiscal year.
